- Waterproofing
- Insulation
- Protection of metal and concrete

RESISTO[®]

About RESISTO®

Established in 1996, RESISTO – a division of SOPREMA – specializes in the retail sale of construction and home improvement products. SOPREMA passed down 100 years of expertise and know-how in the field of building waterproofing to RESISTO. Over the years, RESISTO has expanded its product line to include a multitude of applications around the house.

RESISTO is attentive to consumers who are increasingly knowledgeable and eager to buy quality products, and offers innovative solutions that stand out for their ease of installation.

In order to better serve its agricultural customers, RESISTO now offers a product range that is specifically adapted to the realities of the field.

Whether for sealing, insulation or maintenance of concrete and metal surfaces, RESISTO offers professional-grade innovative solutions and products that are accessible and easy to use.

RESISTO® Quality

Accessibility guaranteed

- Employees trained to answer all your questions
- In-depth knowledge of appropriate products and agricultural applications
- Receptive and qualified technical support

Simply efficient

- Easy to use products
- Wide distribution network in North America
- Products available in most hardware stores

Proven quality

- Contractor quality
- Products tested to withstand any weather conditions
- Clear choice for industry professionals

A – Agricultural buildings housing animals

- **Metal roofs and walls**
 - METALINK
 - ALUMINUM ROOF COATING
 - MULTIPURPOSE WATERPROOFING MEMBRANE
 - ALUMINUM ELASTOMERIC SEALER
 - R NOVA PLUS
 - LIQUID WATERPROOFING MEMBRANE - RESISTOFLASH
 - ADHESIVE M-1
- **Gutters**
 - MULTIPURPOSE WATERPROOFING MEMBRANE
 - LIQUID WATERPROOFING MEMBRANE - RESISTOFLASH
 - ADHESIVE M-1
- **Door and window details**
 - DURALINK 35 AND 50
 - MULTIPURPOSE WATERPROOFING MEMBRANE
 - ALUMINUM ELASTOMERIC SEALER
 - ADHESIVE M-1
- **Concrete or plywood floors**
 - ALSAN TRAFIK EP 110
 - ADHESIF M-1
- **Enclosures for animals and other concrete surfaces**
 - ALSAN TRAFIK EP 110
 - ADHESIVE M-1
- **Insulation**
 - HIGH-PERFORMANCE REFLECTIVE INSULATION
 - SOPRA-CELLULOSE

B – Agricultural hangars and storage buildings

- **Metal roofs and walls**
 - METALINK
 - ALUMINUM ROOF COATING
 - MULTIPURPOSE WATERPROOFING MEMBRANE
 - ALUMINUM ELASTOMERIC SEALER
 - R NOVA PLUS
 - LIQUID WATERPROOFING MEMBRANE - RESISTOFLASH
 - ADHESIVE M-1
- **Gutters**
 - MULTIPURPOSE WATERPROOFING MEMBRANE
 - LIQUID WATERPROOFING MEMBRANE - RESISTOFLASH
 - ADHESIVE M-1
- **Door and window details**
 - DURALINK 35 AND 50
 - MULTIPURPOSE WATERPROOFING MEMBRANE
 - ALUMINUM ELASTOMERIC SEALER
 - ADHESIVE M-1
- **Concrete or plywood floors**
 - ALSAN TRAFIK EP 110
 - ADHESIVE M-1
- **Insulation**
 - HIGH-PERFORMANCE REFLECTIVE INSULATION
 - SOPRA-CELLULOSE

Products Tailored to Your Reality

Our product line for waterproofing, insulation and protection of metal and concrete offers optimal solutions for overall protection.

Professional-grade equipment specifically designed to meet your farming needs.

C – Houses

- **Metal or asphalt roofs**
 - ALUMINUM ROOF COATING
 - MULTIPURPOSE WATERPROOFING MEMBRANE
 - ALUMINUM ELASTOMERIC SEALER
 - LIQUID WATERPROOFING MEMBRANE - RESISTOFLASH
 - ADHESIVE M-1
- **Gutters**
 - MULTIPURPOSE WATERPROOFING MEMBRANE
 - LIQUID WATERPROOFING MEMBRANE - RESISTOFLASH
 - ADHESIVE M-1
- **Chimney bases and skylights**
 - LIQUID WATERPROOFING MEMBRANE - RESISTOFLASH
 - ALUMINUM ELASTOMERIC SEALER
 - ADHESIVE M-1
- **Door and window details**
 - DURALINK 35 AND 50
 - MULTIPURPOSE WATERPROOFING MEMBRANE
 - ALUMINUM ELASTOMERIC SEALER
 - ADHESIVE M-1
- **Insulation**
 - HIGH-PERFORMANCE REFLECTIVE INSULATION
 - SOPRA-CELLULOSE

D – Silos (outside)

- MULTIPURPOSE WATERPROOFING MEMBRANE
- R NOVA PLUS
- LIQUID WATERPROOFING MEMBRANE - RESISTOFLASH
- ADHESIVE M-1

E – Sheds

- ALUMINUM ROOF COATING
- MULTIPURPOSE WATERPROOFING MEMBRANE
- LIQUID WATERPROOFING MEMBRANE - RESISTOFLASH
- ADHESIVE M-1

F – Propane or natural gas tanks

- ALUMINUM ROOF COATING
- ADHESIVE M-1

G – Concrete manure or silage pits

- ALSAN TRAFIK EP 110
- ADHESIVE M-1

H – Recreational vehicles, trailers, and boats

- MULTIPURPOSE WATERPROOFING MEMBRANE
- ADHESIVE M-1

INSULATION

PRODUCT/RANGE	DESCRIPTION	BENEFITS
---------------	-------------	----------

HIGH-PERFORMANCE REFLECTIVE INSULATION

Reflective insulation ideal for agricultural projects, new construction or renovations, including metal buildings and column- or lumber-framed constructions.

- **Reflective insulation** – Reduces heat in the summer and retains it in the winter, which provides comfort and safety to livestock all year long.
- **Quick and easy to install** – Allows you to complete the project quickly without affecting your production. In addition, no special tools are required.
- **Reliable and durable vapour barrier** – Reduces air and moisture infiltration and helps the cultivation of certain fruits and vegetables such as potatoes.
- **Energy and cost savings** – Restricts thermal movement; heat goes where it needs to be.
- **Easy to clean and available in white or black finish** – White finish promotes light, while black finish is useful in situations where animals must be calm, such as poultry houses.
- **Versatility** – Can also be used in packaging, tractors, plumbing, etc.

CELLULOSE

Thermal and acoustic cellulose-based insulation made of 85% recycled newspapers that can be installed in attics, walls, floors, and ceilings. It is treated with additives that absorb oxygen, providing excellent fire resistance.

- **Exceptional Resistance to Insects and Rodents**
Natural additives in the product repel vermin, making it the ideal insulation for farm buildings.
- **Livestock Comfort and Safety**
Superior thermal performance (R-value of 3.71 per inch), allowing optimum control of temperature and humidity.
- **Great Savings**
One of the best price-quality ratio on the market, with its high-energy efficiency providing savings on annual heating and cooling costs.
- **Safer and Healthier**
With no chemical additives, SOPRA-CELLULOSE does not irritate skin, and offers excellent resistance to corrosion, moisture, and mould.

MAINTENANCE AND PROTECTION OF METAL SURFACES

PRODUCT/RANGE	DESCRIPTION	BENEFITS
---------------	-------------	----------

ALUMINUM ROOF COATING

Thick bitumen coating ideal to restore metal surfaces, asphalt roofs and painted surfaces, and to protect them from corrosion.

- **Exceptional durability** – Its unique composition makes it a product of incomparable strength which gives you long-lasting peace of mind.
- **Easy and quick application** – Easy to use, it will save you time and money.
- **Aesthetic aluminum finish** – Reflects heat, keeping farm buildings as well as livestock cool during summer.
- **Versatility** – Can be used on various metal surfaces: roofs and walls of houses and farm buildings, the outside of silos, tanks, trailers, water pipes, etc.

R NOVA PLUS

Unique system composed of acrylic and polyurethane specifically designed to protect metal roofs. In addition, the colour of the topcoat can be modified for a custom finish.

WATERPROOFING

PRODUCT/RANGE

DESCRIPTION

BENEFITS

MULTIPURPOSE WATERPROOFING MEMBRANE

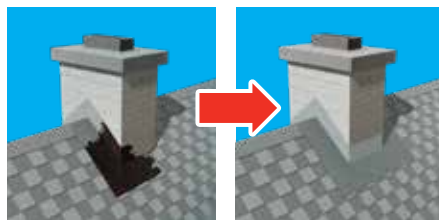

Versatile white or aluminum adhesive membrane that is a quick and effective solution to maintain or repair surfaces that need to be sealed.

- **Excellent adhesion to a multitude of surfaces** – Robust, it easily adheres to metal, wood, gypsum, concrete, aluminum, brick, stone, asphalt shingles, etc.
- **No special tools are required for installation** – Saves time, thanks to its quick and easy installation.
- **Weatherproof** – Sustainable product resistant to UV rays and temperature changes.
- **Aesthetic white or aluminum finish** – Reflects heat, thereby keeping farm buildings as well as livestock cool during summer.
- **Versatile** – Can be used on metal roofs and walls, silos, tractors, recreational vehicles, boats, gutters, door and window details, and more.

LIQUID WATERPROOFING MEMBRANE RESISTOFLASH

Perfect and unique liquid waterproofing solution for new construction and repairs that installs without primer on most surfaces, such as asphalt shingles, granulated membranes, wood, concrete or metal.

- **Quick and easy to install** – Allows you to complete the project quickly and without affecting your production. In addition, no special tools are required.
- **Sustainable product resistant to UV rays and weather** – With its bitumen and polyurethane-based composition.
- **Can be coated with ANTICORROSION SEALANT** – For an aesthetic aluminum finish.
- **Versatility** – Ideal for the waterproofing of details and particular areas, such as chimneys, skylights, air vents, industrial fans, and plumbing vents.

MAINTENANCE AND PROTECTION OF CONCRETE

PRODUCT/RANGE

DESCRIPTION

BENEFITS

ALSAN TRAFIK EP110

Epoxy-based vapour barrier and coating designed to protect and extend the lifecycle of concrete, plywood or vinyl surfaces. Ideal for all types of farms, it has very low odour and VOC content. In addition, its quick drying time reduces the impact on agricultural activities.

- **Comfort and safety of livestock** – The coating provides a more comfortable, smoother surface for animals and reduces injuries that can be caused by damaged concrete.
- **Durable and rock solid** – Excellent resistance to traffic, shocks, water, chemicals, manure, and animal urine.
- **CFIA certified** – Non-toxic to humans and animals.
- **Easy maintenance** – The coating-covered surface can be cleaned quickly and effortlessly with a high-pressure washer.

OTHER PRODUCTS

PRODUCT/RANGE

DESCRIPTION

ALUMINUM ELASTOMERIC SEALER

All-purpose repair and jointing bitumen-based aluminum-coloured mastic used to seal RESISTO membrane joints to ensure the waterproofing of roof details, and repair holes and cracks.

SOPRAMAT

Rubber mat made from recycled materials designed to protect the floor, which also provides comfort to animals.

CHEMLINK ADHESIVES AND SEALANTS

PRODUCT/RANGE

DESCRIPTION

BENEFITS

MULTIPURPOSE M-1 ADHESIVE SEALANT

M-1 structural adhesive sealant is highly resistant and made of polyether. It can be applied on a wide range of roofing materials and is ideal for gentle and steep slope roofs. It becomes an elastic and robust seal after curing. The M-1 adhesive sealant is designed for difficult site conditions such as dry or wet climates.

- **Highly resistant**
- **Ideal for sloping roofs**
- **Quick and easy to install**

DURALINK 35 AND 50

Duralink 35 and 50 sealants form durable, highly elastic rubber seals that cure in less than 30 minutes in humid conditions. They are designed to be applied to residential construction cladding, architectural metal, curtain wall constructions and motion joints. These sealants can also be applied inside silos. Duralink 35 adapts to a small amplitude of joint motion, and Duralink 50 to a large amplitude.

- **Cures fast in humidity**
- **Withstands various joint movement amplitudes**
- **Quick and easy to install**

METALINK

MetalLink is a silicone-based sealant specially designed to be applied to the metal substrates of a roof. It adheres to aluminum, steel, and copper. Its wide range of UV-resistant colours adapt to any and all decorative metal roofs and cladding products.

- **Adheres to most metal substrates**
- **Its colour does not fade**
- **Colour range is suitable for all types of roofs**

*Other agricultural products are also available.
